

Member Need to Know- Aviation Medical Certificate Exemption

Transport Canada has advised that Exemption CAME-002-2023, which allows eligible Aviation Medical Certificate holders to renew their Medical Certificate via telemedicine appointments, is set to expire on March 3, 2025.

Transport Canada advises that If you have a telemedicine appointment scheduled for after this date, they recommend converting it to an in-person appointment to avoid any issues with your license renewal.

Transport Canada is currently assessing whether this measure should be extended. We will advise you as Transport Canada updates stakeholders.
