

## Federal party positions on CBAACAA top-line issues

Key Issues	Liberal	Conservative	NDP	Bloc
<b>Sustainable Aviation Fuel</b>	Budget 2021 allocated \$228M to development of low-emission marine + aviation fuels, for a low-carbon fuel procurement program.	Aim to achieve a 20% reduction in carbon intensity for transport fuels.	A NDP government would work with CBAACAA and other stakeholders to explore sustainable aviation fuels to reduce emissions in the aviation sector.	Supports the use of environmentally friendly fuels, in particular hydrogen.
<b>Luxury Tax</b>	Supports Luxury Tax. Has put Luxury Tax parameters to public consultation to inform legislation that will implement tax.	No official position but did not support tax as it applied to businesses, operators during Finance Committee consultations.	Supports Luxury Tax.	Supports Luxury Tax that applies to individuals.
<b>R&amp;D + Business Supports</b>	Announced in Budget 2021, the Aerospace Regional Recovery Initiative commits \$250M to small and medium-sized firms for improving productivity, strengthening commercialization, and greening their operations and products.  Budget 2021 earmarked \$1.75B in new investments for aerospace sector through the Strategic Innovation Fund.	Establish the Canada Advanced Research Agency to invest in \$5B in making major advances in areas that include the space sector.  Canada's Conservatives will make Canada a low tax jurisdiction for innovation and new product development by introducing a "patent box" regime to cut the tax rate in half on	Support expanding domestic manufacturing in the aviation industry and investing in green innovation.	Supports predictable R&D funding for aerospace.  Supports delivering and improving refundable R&D tax credits.  Supports investment in risk sharing projects.  Supports capital investments for SMEs.

	<p>The Aerospace Regional Recovery Initiative provides \$250M over three years to help the Canadian aerospace sector emerge from the pandemic and continue to compete on the global stage.</p>	<p>income earned from patents on innovative products developed here.</p>		<p>Supports investing in R&amp;D for space exploration, including satellites.</p> <p>Create the Canada Investment Accelerator: getting companies spending money and creating jobs by providing a 5% investment tax credit for any capital investment made in 2022 and 2023, with the first \$25,000 to be refundable for small business</p>
<p><b>Sustainability</b></p>	<p>Budget 2021 invests \$5B in the Net Zero Accelerator, which is intended to assist industry – including aerospace – in spurring clean innovations.</p>		<p>Supports working with CBAА to promote SAF.</p> <p>Will establish a new Canadian Climate Bank that will help boost investment in renewable energy, energy efficiency and low carbon technology across the country.</p>	<p>Supports sustainability in aviation, including using SAF, lower-carbon aluminium, and innovating in the production of greener and more fuel-efficient aircraft.</p>
<p><b>Other</b></p>				<p>Implement a national aerospace strategy.</p> <p>Ensure domestic industry is given priority in procurement, in particular in defence.</p> <p>Allow Quebec more flexibility in immigration (including full management of the temporary specialized worker program) in order to better meet needs.</p> <p>Ensure that Transport Canada has the necessary resources to maintain standards that exceed international standards.</p>
