

Attention CBAA 2018 delegates...
save hundreds of dollars when you register for CBAA's pre-convention professional development courses

Aimed at Canadian business aviation operators, and endorsed by the CBAA, these certified, industry-recognized courses, developed by the Canadian Council for Aviation and Aerospace (CCAA), will support your career growth and enhance your operational and management skills.

Quality Systems Auditor for 604 Operators

Mon., June 11th & Tues., June 12th

This **two-day workshop** provides an in-depth focus on 604 operators and how to audit their Quality Assurance Program (604.204 CARs) and Safety Management System (604.207 CARs). It is a learning opportunity for aviation operational personnel with little or no auditing experience, as well as experienced aviation operational personnel who wish to become internal operational auditors.

Quality Assurance Manager

Monday, June 11th

This **one-day workshop** was developed to prepare participants for Transport Canada expectations in accordance with established Occupational Standards. It provides a comprehensive overview of the role and responsibilities of the Quality Assurance Manager. Upon completion of this course, participants will have a sound understanding of the fundamentals of the quality processes and procedures, and key responsibilities of a Quality Assurance Manager.

Corrective Action Plans

Tuesday, June 12th

This workshop enables participants to develop meaningful and appropriate corrective action plans. Upon the successful completion of this workshop, participants will possess a thorough understanding of how to interpret findings, develop corrective actions, determine root causes and develop preventative actions.

These courses can cost up to \$850.00 EACH. But as a CBAA member and registered convention delegate, you can take advantage of deep-discount pricing available nowhere else.
