MAKING A DIFFERENCE DURING COVID-19

Skyservice Business Aviation Inc. recognizes that some individuals still need to travel albeit for essential business or to be with loved ones (repatriation back to Canada or back to their homes abroad). To ensure our passenger safety, and our crew, we are providing an inflight safety kit to all of our passengers & crew. The kits contain Masks, gloves hand sanitizer and a disposable bag. This is in addition to precautions we have taken within our FBO facilities with covid and standard high level of safety and service we uphold on a regular basis.

THANK YOU!
